

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering Bannari Amman Institute of Technology CGPA: 7.90 (Up to 6th Semester)	Nov 2022 - Present Sathyamangalam,India
Higher Secondary Certificate (HSC) Government Higher Secondary School, Kaliannanpudur Percentage: 87.0%	Apr 2020 - Mar 2022 TamilNadu,India
Secondary School Leaving Certificate (SSLC) Government Higher Secondary School, Kaliannanpudur Percentage: 88.0%	Jan 2015 - Mar 2020 TamilNadu,India

SKILLS SUMMARY

- **Languages:** Python, C , Java, SQL
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks:** Flask, Streamlit
- **Tools:** Visual Studio Code, MySQL, Git & GitHub, Docker Hub, Postman
- **Platforms:** PyCharm, Jupyter Notebook, IntelliJ IDEA, Azure App Service, GitHub Pages
- **Soft Skills:** Problem Solving, Team Collaboration, Quick Learner, Adaptability, Critical Thinking

TECHNICAL EXPERIENCE

Student Special Group (SSG)	Mar 2023 - Oct 2023
• Contributed as a web developer in the Student Special Group (SSG) at Bannari Amman Institute of Technology, a team focused on building and maintaining internal college projects. • Collaborated with peers to design and develop websites that improved campus-related workflows and student engagement. • Worked with technologies such as HTML, CSS, JavaScript,ReactJs,UI/UX. • Gained practical experience in team coordination, requirement gathering, and project deployment within institutional environments.	

PROJECTS

Text-to-Video AI Generator LINK	Sept 25 - Oct 2025
◦ Developed an AI-powered application that converts text topics into narrated short videos. ◦ Integrated OpenAI/Groq for script generation, Edge TTS for narration, and Whisper for captions. ◦ Automated video assembly using MoviePy and ImageMagick, producing complete rendered videos ◦ Built an interactive Streamlit interface allowing users to input and download generated videos.	
Deep Learning-Based Image & Video Colorizer LINK	Jul 2025 - Sep 2025
◦ Developed an AI-based tool to colorize black-and-white images and videos using deep learning. ◦ Used pre-trained CNN models to predict color information (LAB color space). ◦ Built an interactive Streamlit web app to upload and colorize media in real time. ◦ Handled frame-by-frame video processing and smooth color transitions using OpenCV.	
Personal Portfolio Website LINK	Jan 25 - Feb 2025
◦ Designed and developed a responsive personal portfolio website to showcase projects and skills. ◦ Implemented using HTML, CSS, and JavaScript for a clean and user-friendly interface. ◦ Hosted the website on GitHub Pages for public access. ◦ Includes sections for projects, contact information, and personal introduction.	

CERTIFICATES

Java Programming Fundamentals - Infosys Wingspan CERTIFICATE	Dec 2022
◦ Gained a solid understanding of Java programming principles, including object-oriented concepts, exception handling, and data structures.	
Create Your First Python Program - UST via Coursera CERTIFICATE	Nov 2023
◦ Learned the basics of Python programming, including syntax, variables, control structures, and simple project implementation.	
Learn Python – CodeChef CERTIFICATE	Sept 2023
◦ Strengthened Python proficiency by solving practical challenges, focusing on problem-solving and competitive programming techniques.
